The calendar says August 14 is Victory Day. We hate to argue with the calendar because it does a nice job of keeping days in order. But in this unbrilliant optimism as a chapter in the Pacific phase of World War II, we have more losses than a broken cubew. Instead of picking up those ends and weaving into final victory patterns, we have made too many concessions and got home too fast. Now we are paying the price. Victory Day is a day when the victors are trying to get the peace terms they want. It is a day when the victors are trying to get the peace terms they want. ## MITCHELL HEADS MIAMI FAC OFFICE

R. O. Mitchell will have charge of the branch office of the Florida Apprenticeship Council which will be established in Miami effective August 1. Raymond E. Barnes, Chairman of the Florida Industrial Commission, announced today.

Barnes said F. J. Vandillon, Executive Secretary of the Council, will continue to direct the state program and service the apprenticeship committees in the northern part of the state while Mitchell, formerly working out of the Tallahassee office as Field Supervisor, will continue in this capacity and service South Florida.

The continuous growth of the apprenticeship program in the southern part of the state necessitated placement of a representative from the central office who would be able to give more personal attention to the programs.

Activities of the newly established office will include assistance to employers and groups in organizing apprenticeship programs, developing standards, and servicing programs ready in operation.

Pending the establishment of a permanent office, Mitchell may be contacted through the Miami office of the Florida State Employment Service, 501 N. E. First Avenue. Telephone 9-8341.

### Local Talent

The cast of "Hotel Lavalier," includes Miss Momi Kooles of West Palm Beach and Miss Norene McMullen of Lake Worth. Bud Greene, Miss Monica Koppke and Frank Budgett are cast in "Two Boys Meet Girl."

Dr. Matho M. Liuba, General Music Director of The Stagecrafters, will open the show and introduce Honorable Harold J. Rabin, Mayor of Belle Glade, who will give a brief word of welcome.

The Palm Beach Stagecrafters are a non-profit amateur dramatic and musical group with regular players and performers from the Palm Beaches, Lake Worth, Riviera Beach and Lake Park, and guest performers from other communities. There are no dues or fees in connection with taking part in the activities and the group has given a number of benefit performances since January in the county. Their series of summer benefit shows have been attracting much favorable reaction, as they afford wide range of talent and ages.

Dr. Margaret Liuba is in Belle Glade all this week arranging for the show. She contributes her time to this work.

Gerald S. Parker of Riviera Beach contributes his time as stage manager, for these performances.

The recent mosquito plague which has swept the county east coast was also a subject of discussion. The commission authorized use of an airplane for spraying the coastal area in an attempt to wipe out the droves of insect pests which have swarmed in during the past week.

The group also voted that each commissioner should arrange impounding pens and truck transportation to comply with the state's new law to keep cattle off the highway. The commission is responsible for making holding pens available for cattle picked up by the sheriff's department. The law provides that if the cattle are not claimed by the owners, they shall be sold by the county to pay handling costs.

The commission also approved certification to the State Road Department for right-of-way for widening four blocks of U. S. 1 in Lake Worth and for the 45th St. extension in West Palm Beach.

They also approved recording in the minutes, a news story about the injury of eight persons as a result of stock car races in connection with commission action in turning down a bid to hold stock car races at International Airport.

### HORMONES CUT COSTS OF LIVESTOCK

Hormones like those doctors use on human patients are now thanks to industrial research, being used to turn out livestock and poultry products at less expense.

The stock hormones are "cousins" of insulin—widely known in the treatment of diabetes, and ACTH—used for arthritis. Their use for farm animals has been approved by the U.S. Food and Drug Administration, and farmers are expected to spend one million dollars for them this year.

One type of hormone, mixed with cattle feed, is credited with boosting milk production 15 percent and butterfat production 25 percent. Another hormone mixed into hogged pot more than 1 one-half pounds per day on a herd of swine. Sponsors of the feeding project said pigs fatten on the hormone diet about two cents per pound. Every 100 pounds gained, while pigs on ordinary diet ate 417 pounds of feed to gain the same weight.

Another hormone is said to turn roosters into capons without surgery, thereby qualifying the fowl for a premium price of about two cents per pound.

Some of the men directing the research job are scientists who have been engaged in such work for years—some of them since student days at college. University scientists have cooperated with the industrial research men.

The hormone food for cows has been tried out successfully on about 35,000 of the animals in the last four years. The hormone for caponizing roosters will be tried out on about 12 million birds this year.

### New Bethel Baptist Church

Mrs. G. M. Douglas, Reporter  
Mrs. Annie Mae Everett

Sunday was the last day of the ministers and deacons congress meeting. Sunday School opened at 9:30 o'clock with the local Supl. Dea. S. Kendall and the District President Mr. W. J. Butler. Each class was taught fifteen minutes by their teachers. The lesson was wonderfully reviewed by Rev. E. Coffee, Pastor of First Baptist Church, South Bay, Fla. 11:00 devotion led by Dea. Harry Williams and Dea. Floyd Keys of Lake Harbor, Fla. Inspirational service by St. Paul Baptist Church choir, Ft. Myers, Fla. The Morning sermon was delivered by the President Rev. A. R. Robinson. Everyone seemed to enjoy the message to the highest.

At 3:00 o'clock P. M. the message was delivered by the Rev. E. Coffee. Again the spirit ran high. The BYPU was conducted by Dea. W. O. Brown and Rev. L. M. Kitchen. At 7:30 o'clock devotion led by Dea. L. W. Holland. Inspirational service by choir no. one.

The evening message was delivered by Rev. T. K. Kennedy, pastor of Bean City and Lake Harbor. The Congress meeting was a very successful one. The next meeting will convene at Lake Harbor, Fla. Total money raised \$229.23.

Our pastor Rev. W. Porter is leaving on the week end for Griffin, Ga. There he will spend three weeks in revival meetings. Also Mrs. Daisy Hart is leaving for Fitzgerald, Ga. There she will spend her vacation visiting her relatives and friends. We pray they will have a safe trip.

### HONEY REPORT

Florida beekeepers report a 10 percent increase over last year in the number of colonies on hand July 1, 1950. The number of colonies on hand this year is estimated at 208,000 compared with 189,000 in July 1949. Losses amounted to 11 percent, attributed mainly to insects, starvation and queenless. New Spring colonies constituted 12 percent of the total. The condition of the Florida colonies on July 1 at 89 percent of normal was 1 percent below last year, while the condition of nector plants was 78 percent of normal compared with 75 percent a year ago. The honey flow has been better than last year. The citrus bloom extended over nearly a four months' period.

The United States has over 12,000 miles of seacoast and more than 18,000 miles of inland waterways.

### Disregarding Signs Cause Accidents

KNOW YOUR SIGNS OF LIFE, was Highway Patrol Chief H. N. Kirkman's warning to Florida's drivers today in support of the Florida Highway Patrol's recently announced August program of highway safety education.

"Although the importance of knowing and obeying traffic signs may seem almost too basic to mention," Kirkman said, "the number of drivers today who don't know the difference between a 'Stop' sign and a 'Slow' sign is startling." Re-educating the driving public to the forms and meanings of various highway signs, and the consequences they face in not recognizing them, the Florida Highway Patrol announced, is the motivation for this month's public information program.

"In 1948," Kirkman said, "for every 100 drivers involved in a fatal accident, there were 22

instances of a sign, signal, or traffic officer having been overlooked or deliberately ignored. No traffic violation can be more flagrant than one of this nature."

The Florida Highway Patrol pointed out that most drivers are only aware that highway signs can be in several shapes and colors and pay scant attention to the significance of these differences.

All highway signs fall into five groups, Kirkman said. Three of these shapes have exclusive uses. The round, octagonal, and cross-buck signs mean "railroad" approach, "stop," and "caution"—"railroad," respectively.

The other two basic sign shapes, he pointed out, are more general in nature. Diamond-shaped signs, he said, are fundamentally symbols of an approaching condition that might be dangerous, and are

advisory in nature. Into this "slippery when wet" no-group fall the curve warnings, tices, and so forth.

First of the Fine Cars in Value

## Even Wiser than He Seems

PLAINLY, here travels a man in the ways of fine motorcars.

You know that, by the four Ventipoints and the rich sweep of chrome which mark his car as a ROADMASTER.

You know it, should you trail him on the highway, by the smooth lift of the big Fireball

power plant at his toe's command, by the obvious levelness of the ride he enjoys, the swift ease with which Dynaflow Drive solves his traffic problems.

What is not so plain from what you see is that here also is a man very wise in what today's dollar should buy!

For this man has all that a finer owner can ask for—brilliant performance, a ride without equal for gentle softness, finger-easy handling, abundant room all around him, styling that is easily the most distinguished on the highway.

Yet he paid considerably less than comparable merit costs elsewhere.

He found fewer extra charges in his delivered price, with such things as Dynaflow Drive, foam rubber cushions, windshield washers, electric clock, even non-flare rear-view mirror included in the price.

If you know fine cars, it won't take fifteen minutes behind a ROADMASTER wheel to see that here is one of the finest.

If you have inquired about prices, a single glance at the delivered figures establishes this as the big buy of the field.

Why not make both checks—especially since your Buick dealer will be glad to arrange a trial run in a ROADMASTER any time you care to call on him?

Only BUICK has Dynaflow-DRIVE and with it goes:

- HIGHER-COMPRESSION 16-valve in-line power in three engines. New V-263 engine in SUPER models.
- NEW-PATTERN STYLING, with MUST-GUARD fastback, super-through fenders, "double bubble" taillights.
- WIDE-ANGLE VISIBILITY, close-up road view both forward and back.
- TRAFFIC-HENNY SIZE, less over-all length for easier parking and maneuvering, short turning radius.
- EXTRA-WIDE SEATS cradled between the wheels.
- SOFT BUICK RIDE, from oil-coil springing, Safety-Ride rims, low-pressure tires, ride-tweaking torque-shock.
- WIDE ARRAY OF MODELS with Body by Fisher.

\*Standard on ROADMASTER, optional on other Buick models.

OCALA BRAHMAN SHOW  
SCHEDULED JAN. 17-19

The 1951 Ocala Brahman Show will be held January 17, 18 and 19, and the annual sale will be an event of Saturday, January 20, according to recommendations of the Show Committee of the Eastern Brahman Association, at a meeting held in Tampa recently.

Plans for the annual event will be perfected at a meeting of the committee with directors of the co-sponsors, Southeastern Fat Stock Show and Sale, Inc., at Ocala, shortly.

100 percent approval of the American Brahman Breeders' Association's new standard and show list was voted by the committee—which has been given executive power by EBA directors—and all EBA-sponsored shows will be classified in harmony with ABBA proposals. So far as the 1951 Florida State Fair is concerned, the committee agreed that aged bull and aged cow classes be included, although ABBA recommends their elimination effective with the 1951-52 show season.

**PENALTIES FOR  
DELINQUENT TAXES**

A check of the tax roll for 1949 for the Town of South Bay reveals that 75% of the real estate taxes and 93% of the personal taxes for the year have been paid.

Property owners whose taxes are now delinquent for the year 1949 are urged to make an effort to avoid further penalties and costs of advertising for a tax sale by coming in immediately and taking care of these taxes which became delinquent and subject to penalty for late payment on April 1.

**UWF SAYS NOT TO SIGN  
A-BOMB OUTLAW PETITION**

The Florida Branch of United World Federalists issued a statement yesterday warning Floridians against signing "world peace appeals" to outlaw the atomic bomb. The sponsors claim they already have a million signatures, several thousand in Florida.

Signers of petitions to outlaw the atomic bomb under present day conditions, will be falling into a Communist propaganda trap, the Federalists believe. The Soviets in their peace petitions and rallies are trying to take advantage of people of good will throughout the world for their own ends.

The reason Communists want the atomic bomb outlawed is because they feel it is the one weapon in which the United States has a superiority. George Lewis II, Tallahassee, UWF State Chairman, said if the "Stockholm peace proposal" included a pledge that the Red Army would be disbanded he'd favor it.

If the Moscow propaganda maneuver should succeed, the balance of military power in the world would be tilted sharply in favor of the Soviet Union, the UWF statement said.

The United Nations, as it has been constituted, has no ready answer to armed aggression, until it has, it is imperative that the United States be able to use its stockpile of atomic bombs as a threat against aggressors and as a counter balance to the mass of the Red Army.

The Federalists feel that the United States should continue this Communist peace propaganda with a United States sponsored program to stop the danger of a world-wide war. Unless the United States State Department has a constructive peace plan ready to present to next fall's United Nations General Assembly, UN delegates may be impressed by these millions of peace signatures being dumped in their laps by Russia and its satellites, the UWF statement concluded.

**233 VETS END  
TRAINING PROGRAM**

Veterans taking training under the Florida Apprenticeship program totaled 519 during the year ending July 1, 1950, according to F. J. Vandillon, executive secretary of the Florida Apprenticeship Council.

Approximately 233 veterans attained journeyman status during this period. To become a journeyman the apprentice must fulfill certain obligations including on-the-job and classroom study for a specific period of time. When he has completed this, provided all requirements are met, he receives a certificate of completion from the Council and is recognized as a journeyman.

Total graduates for the year reached 385. Carpenter number the greatest with 119 completions. Next in order were plumbers, 65; telephone workers, 52; masons, 47; and electricians, 43. Nine other trades were represented by the graduates.

In keeping with the expanding over-all state program of apprenticeship, 109 employers were approved for apprenticeship training.

When a group or firm desires to set up a program for an industry, the Apprenticeship

Council provides a training expert to work with them in their plant. In setting up a training system, standards of training and length of time are defined. After the Council registers the group, all apprentices who finish the prescribed course are recognized as journeymen.

The Yellowstone river is about 1100 miles in length.
